*Given for the first time ever
to a non-Japanese,
Aref Saade was awarded
by the Japanese Prime
Minister the Overseas
Promotion of Japanese
Food, Culture and
Fishery Products.*

It is my great pleasure to welcome you to the award winning Shogun Lounge, Lebanon's exclusively authentic home of Japanese cuisine. And to the many regular connoisseurs, welcome back!

A bit of history... The contemporary version of sushi that we know today was created by Hanaya Yohei in Tokyo in the mid 18th century. It was an early form of fast food that could be eaten by hand and was served in theaters and road side restaurants. The original version was created in the 8th century and is about three times bigger in size. The term sushi means "sour-tasting", referring to its historical origin as a fermented food made to preserve fish by wrapping it in soured rice.

In recent years, sushi increased in popularity as it proved to be healthy, easily digested and trendy.

On a personal level, Japanese cuisine has changed my life. By bringing you this unique cuisine from a fascinating culture, I hope it will change yours too.

Aref Saade
